

## ITALIAN ARMY IS STILL PRESSING ON

Advance in Albania on Forty-Mile  
Front Between the Osum River  
And The Adriatic

ADVANCE 15 MILES THIS WEEK

German Artillery Begins Bombardment After Repulse of Attacks by the British

(By United Press.)

Paris, July 10.—Artillery fighting in some sectors on the Picardy and Marne front was reported by the French war office today.

Washington, July 10.—Large enemy troop movements continue before the American position in France. These indications point out a storm against the Americans.

The Hague, July 10.—Fifty-four girl workers were killed when German airmen made an afternoon raid on an ambulance station at LaPanne Belgium, according to a dispatch today. More than fifty bombs were dropped.

Rome, July 10.—Italian forces in Albania are still pressing forward on the forty-mile front between the middle of the Osum river and Adriatic, the Italian war office announced today.

They have reached the west bank of the lower and middle Semeni river, an advance of about 15 miles since Sunday, and are progressing on both sides of the Osum.

### Enemy Attacks Repulsed

London, July 10.—Following repulse of enemy attacks south of the Somme last night, German artillery early today began active bombardment along the ten-mile front between Villers-Bretonneux and the Ancre, Field Marshal Haig reported today.

British airmen brought down thirteen German planes July 8 and lost four of their own. More than 19 tons of bombs were dropped on enemy targets.

### Several Heavier Casualties

Washington, July 10.—General Pershing today reported 103 casualties divided as follows: killed in action, twelve; died of wounds, fifteen; died of disease, four; died of accident and other causes, three; missing in action, twelve; wounded, forty-six and prisoner, two. F. Kobzinski of South Bend, Ind., was killed in action and J. E. Carpenter of Ridgeville, Ind., died of wounds. The wounded severely include the following Hoosiers: A. D. Adams of Roachville, E. Nussbaum of Wakarusa and T. DeLee of South Bend. Marine casualties total five divided as follows: killed in action, two; died of wounds, two, and wounded severely, one.

### German Army Unruly

With the British Army in France, July 10.—"Discipline which is the keystone of our army, is seriously shaken," General Vonder Morwitz commander of the German army which holds the lines astride the Somme, thus begins his most recent orders of the day, insisting that punishment be dealt out to the unruly.

A few days ago the General issued another order: "Cases of soldiers openly refusing to obey orders are increasing to an alarming extent."

### CAN'T STOP PROFITEERING

(By United Press.)  
Washington, July 10.—Governmental price fixing will never eliminate profiteering, Food Administrator Hoover declared today in a letter to the chairman of the senate finance committee. Heavy profit taxes is the only means of returning the money to the public, he declared.

## MOB FOLLOWS MINISTER

Mount Hope Pro-German Pastor Said to Have Trampled Flag

(By United Press.)

Mount Hope, Ind., July 10.—After having been besieged in the home of friends on the edge of this village for three hours this morning the Rev. Mr. Teachers, who late yesterday trampled an American flag in the dust, was placed in an auto and driven off toward Napoleon, 50 miles away.

A mob of more than 200 persons pursued in autos. At Napoleon it was reported that a mob awaited the arrival of the alleged pro-German pastor.

## STATE COUNCIL WILL TAKE DEFINITE ACTION

Dispatch Says Committee Recommends Report For or Against Rush County Roads

SEVERAL NOT COMPLETED

That repair work on Rush county gravel highways, which has been retarded due to the strict ban placed on all public improvements during the war, may be resumed at an early date was the information from the State Council of Defense today, contained in an Indianapolis dispatch.

Early in the spring work was begun on a half a dozen roads through the county, but it progressed slowly because of the shortage of material and the slow shipments, due to the disfavor with which the defense council regarded the public improvements during war time. The granting of permits to carry on public improvements rests entirely with the defense council and as a result, the permission to continue the improvements must be obtained from this body before good service, which means a speedy completion of the roads, can be obtained.

A United Press dispatch this afternoon stated that the State Council of Defense today adopted a recommendation of the committee on proposed construction that the council take some action on the incomplete roads in this county—either in opposition or in favor of their completion.

## U-BOAT ACTIVITY OFF U. S. COAST RENEWED

American Liner Arriving Today From Chile Reports Submarine Attack Monday Night

BOTH TORPEDOES MISSED

(By United Press.)

New York, July 10.—German submarine activities have been resumed off the United States coast. An American liner from Chile arriving here today with 85 passengers and a cargo of 3,000 tons of nitrate for munitions was attacked by a U-boat off Cape Henry Monday night. Torpedoes were fired but both missed by a narrow margin.

The attack took place about 350 miles off the coast. Passengers believed the submarine had warning of the liner's coming with the valuable cargo.

The first torpedo swished down the side of the liner. Immediately thereafter an alarm was given and passengers were hurried to the deck when a second torpedo passed so close to the stern that it barely missed the propeller. The submarine was not sighted.

### TERRE HAUTE MAN NAMED

Indianapolis, Ind., July 10.—Edward Stewart of Terre Haute was today appointed state mine inspector of the state industrial board.

## Noted War Correspondent To Be at Chautauqua Here

IRVAN S. COBB

## LOWER STANDARD HELPS THE FARMER

Reduction in Scale and Moisture Test Practically Same as Increasing Price of Wheat

MOST OF IT WILL GRADE NO. 2

This Grade Brings \$2.08 at Elevator; Machines Pack Wheat, Preventing it From Making No. 1

The lowering of the weight standard on wheat this year has been of immense benefit to the farmers and is responsible for some wheat making No. 2 grade which, under last year's standards, would have been No. 3 wheat. The majority of the wheat bought by local elevators will grade No. 2, which brings \$2.08 delivered.

There is scarcely a thrashing company in the county which has not started this week, and if the weather conditions remain as favorable as they have been since thrashing started, the work will be completed sooner than expected. Last night's rain delayed farmers in entering the fields this morning, but the wheat soon dried under the effect of a bright sun.

Allowing one more per cent moisture and one pound less on the grade has resulted in practically all wheat so far delivered to Rush county elevators being graded No. 2. Wheat in this grade should weigh fifty-eight pounds to the bushel and show a moisture test of not more than thirteen per cent.

There is lots of No. 1 wheat grown in Rush county, according to local elevator men, but the thrashing machines pack it so that there is generally a two per cent dockage, which puts it back in the second grade. No. 1 wheat brings \$2.11 according to the price scale which has been fixed by the government. To be graded as No. 1, wheat should weigh sixty pounds and show no more than thirteen per cent moisture. Last year No. 1 wheat had to weigh sixty-one pounds to the bushel.

Some wheat grades No. 3, which includes wheat not making more

## COMMITTEES FOR ASSEMBLY NAMED

With Chautauqua Only 24 Days Distant, Executive Committee is Making Final Arrangements

ADVISORY BOARD APPOINTED

Committees on Program, Advertising, Grounds, Transportation and Decorating Are Selected

With the 1918 session of the Rush county chautauqua only twenty-four days distant, the executive committee headed by T. M. Green, president of the association, is making final arrangements for the annual program.

Because of the many details which are to be disposed of in connection with the rendition of the daily programs which will comprise sixteen sessions, committees have been appointed to take care of each phase of the work. An advisory board, a program committee, advertising committee, grounds committee, transportation committee and decorating committee have been named, the appointments being made among men of the city and county who have been actively engaged in similar chautauqua work for several years. The committees follow:

Advisory board:—Samuel L. Newsum, Jerry Brown, Thomas K. Mull, D. O. Alter, H. D. Miller, E. C. Davidson, O. M. Siler, S. D. Kirkpatrick, Edson L. Aikin, Charles L. Newhouse and T. B. Staples.

Program committee:—J. H. Schell, Miss Anna Bohannon, John A. Titworth and E. B. Thomas.

Advertising committee:—L. I. Allen, F. M. Sparks, C. W. Dunnean, Samuel L. Trabue, J. B. Kinsinger and B. O. Simpson.

Grounds committee:—A. P. Waggoner and A. T. Mahin.

Transportation committee:—Elmer Caldwell and William A. Alexander.

Decorating committee:—Floyd Hogsett, Paul T. Allen and Horatio Havens.

Mr. and Mrs. Glen Moore and son motored to Indianapolis yesterday.

## MORE SEASONED MEN GOING

Only Troops With 6 Months Training To Be Sent Overseas

(By United Press.)

Washington, July 9.—Only seasoned men trained at least six months on American soil are to be sent to France under a new program being worked out by the war department.

Enlargement of several cantonments to accommodate thousands of additional men is part of this plan. The present action of rushing troops across with only three weeks training is to be abolished now that a fighting force of considerable strength has been placed on the allied line.

## FIFTEEN CALLED FOR EXAMINATION

Army Board Notifies Class One Registrants of 1918 Class to Appear For Tests Monday

GET READY FOR AUGUST CALL

+++++  
The names of the fifteen registrants of the 1918 class called for physical examination Monday will be found on page five.  
+++++

Acting upon the request of the war department that the 1918 class of registrants be classified and examined in time to be called for the August quotas, the local army selection board has called fifteen class one men for physical examination next Monday. The call included registrants whose order numbers run as high as twenty-nine. Some class one men between one and twenty-nine could not be called because they have agricultural claims pending before the district board.

Dr. F. G. Hackleman, physician member of the local board, was examining five reclassified registrants of the 1917 class today and the medical advisory board was to examine one reclassified man who appealed from the decision of Dr. Hackleman, passing him. As soon as these examinations are finished, the personnel of the July quota of 40, which will go to Camp Taylor, Ky., in the five day troop movement beginning July 22, can be announced.

## BIG SUBSCRIPTIONS STILL BEING SENT IN

Despite Fact That W. S. S. Campaign Has Been Closed, Canvassers Have Not Stopped

REPORTS STILL BEING MADE

Despite the fact that the War Savings stamp drive has been officially closed for four days, large subscriptions are still being reported at the postoffice as well as the War Savings stamp headquarters.

The canvassers are wide awake and have not stopped working because the official drive has been closed but daily report sales, numerous among which are large subscriptions, from people who were missed during the campaign proper. The July sales which will still contain much of the momentum gathered for the drive, will doubtless contain the largest subscription this year, with the exception of June, when the intense drive was carried on.

Headquarters are still busy tabulating reports from the out townships all of which have not been obtained. This has resulted in a delay in determining the exact results of the campaign.

J. E. Palmer of Indianapolis spent the day in this city, transacting business.

## NEW MINISTER IS PAN-GERMAN

Admiral Von Hintze, Who Will Succeed Von Kuehlmann, Is Not so Dangerous to the Allies

LEADS THE ANNEXATIONISTS

Acceptance of Resignation by Kaiser Probably Due to His Recent Speech in Reichstag

(By United Press.)

London, July 10.—Resignation of Foreign Minister von Kuehlmann is a pan German victory. Admiral von Hintze who will succeed him not only is close to the Kaiser but is a friend and supporter of Admiral von Tirpitz and leader of the Belgian annexationists.

However, it is considered here that a pan-German minister is not so dangerous to the allies as one of the Kuehlmann type who masked the German plans of conquest under continual tricky peace offers giving allied pacifists the baiting material.

Emperor William is said to have accepted Von Kuehlmann's resignation, which probably was brought forth by remarks made in his recent speech to the reichstag as to the improbability of ending the war by force of arms. Admiral von Hintze is the former minister to China and Mexico.

Dr. von Kuehlmann became foreign minister August 6, 1917, succeeding Dr. Alfred Zimmermann, whose retirement closely followed the exposure of his plot to involve the United States in war with Mexico and Japan in the event that this country showed any inclination to join the entente allies.

Dr. von Kuehlmann's conduct of the foreign office appeared to be more than usually successful until June 25, when he appeared before the reichstag to discuss the political aspects of the situation facing Germany. During his address he said: "In view of the magnitude of this war and the number of powers, including those from overseas, that are engaged, its end can hardly be expected through purely military decisions alone and without recourse to diplomatic negotiations."

This statement, which flatly contradicted speeches by the German emperor who only a short time before had referred to peace being won by "the strong German sword" was received with consternation in the reichstag and with sharp criticism by the country.

It was later reported that Dr. von Kuehlmann's words had been approved by General Ludendorff, the German commander on the western front. This brought to notice rumors of friction between Ludendorff and the German crown prince and his coterie, who comprise the radical Pan-Germanic elements in official circles.

Soon after the address in the reichstag, it became common knowledge that Dr. von Kuehlmann's retirement from office would be forthcoming. Some reports were to the effect that his address was intended to inform the German people that their armies could not win the war and was delivered with the cognizance of the emperor, who, when he saw what a storm had been stirred up, resolved to make Von Kuehlmann the scapegoat.

## DEAD ESTIMATED TO BE 125

At Least 75 Are Injured in N.C. & St. L. Railroad Wreck

Nashville, Tenn., July 10.—The total number of identified and unidentified dead from yesterday's collision on the Nashville-Chattanooga & St. Louis railroad near Chattanooga reached 125 early today. The injured number was estimated at 75.

## LABOR SUPPLY IS EQUAL TO DEMAND

Enforcement of Work or Fight Rule  
Already Brings Results to  
Labor Bureau

### LOAFING IS PROHIBITED

Hundreds of Clerks and Other Non-  
essential Workers Now Working  
on Farms

(By United Press.)

Indianapolis, Ind., July 10.—With the enforcement of the work or fight orders and anti-loafing regulations in Indiana cities, the labor supply in the state today was reported to be about equal to the demand.

In some rural districts some farmers have experienced a great deal of difficulty in procuring help but the general labor situation on farms has been taken care of by city dwellers giving their spare time to working in the country, by the United States Boy Workings reserve, which has placed about 10,000 youths on farms and by the anti-loafing orders.

Practically every large city in the state has enacted ordinances prohibiting loafing and specifying that every able bodied man must work a certain number of hours each week. Such an ordinance went into effect in this city and Chief of Police Coffin planned to enforce it strictly.

In cities where such laws have not been enacted, police authorities have been prohibiting loafing on the city streets or in pool rooms and other gathering places, forcing the former idlers to take up some class of work.

Hundreds of clerks and others engaged in non-essential occupations

prior to July 1 are now working on farms and in other such places. Most of those who changed occupations since that time are registered men and are included in the work or fight regulations issued by the war department and affecting only men of the draft age.

The large number of women who have been taking up the work of men has also greatly aided in solving the labor question. The United States employment bureau here announced that thousands of women are now doing work in Indiana which has formerly been done by men.

The Samuel Wisler family of Nappanee has an organized War Saving society composed of Mr. and Mrs. Wisler, eight children, and one servant. The children, the oldest fourteen and baby six months are all owners of War stamps.

## MUST MAINTAIN RECORD IN PORK

Indiana Farmers Who Increased  
Pork Production 20 Per Cent  
Asked to Keep up Same Mark

### SWINE CLUBS ARE ORGANIZED

Co-operative Effort to Increase the  
Use of Pure Bred Boars For  
Market Hogs Asked

Lafayette, Ind., July 10.—Indiana farmers who increased their pork production 20 per cent last fall will be asked to maintain this mark and better it if possible this fall, and with this end in view representatives of the Purdue University Extension Department are busy now forming county organizations to maintain the bacon and lard lines. This is done so that the producers may work on a definite united program to obtain meat as cheaply and as rapidly as possible.

In Whitley, Allen, DeKalb, Randolph, Henry and Huntington counties swine committees have been organized. These committees, composed of practical hog men and farmers, will push the hog production work by working along the following lines:

Co-operative effort to increase the use of pure-bred boars for market hogs.

Co-operation with the county agent to locate farms on which hog feeding and hog production demonstrations can be held.

Establishment and maintenance of a community clearing house committee for the exchange of feeder hogs.

Adopt a plan for community buying of hog feeds in co-operation with the local feed dealers whenever possible.

An effort will be made to get a permanent organization in all leading hog producing counties this summer and then a drive will be instituted for better housing conditions this winter and the more general practice of feeding hogs for the market. More than 250,000 feeder hogs were brought into Indiana from other states during the past winter and this many hogs in addition to those raised in the state were fed for market.

## FARMERS ASKED TO SOW FULL CROP

Must Pay Extra Attention to Wheat  
Crop and Treatment For Eradication of Smut

### ASKS INCREASE OF ACREAGE

Makes Careful Canvass of Each  
County For Best Fields of  
Wheat For Seed

An appeal to farmers of Indiana, that they sow a full crop of wheat, is made in an open letter signed by Warren T. McCray, Chairman of the committee on Food Production and Conservation, of the Indiana State Council of Defense. Mr. McCray urges farmers that they "pay special attention to their seed and its treatment for the eradication of smut, the preparation of the seed bed, the matter of fertilization and all the necessary and important details that contribute toward a full crop."

Mr. McCray says:

"The good people of Indiana have measured up to their responsibilities in all the various war activities most zealously and practically. They have endeavored to carry out the governmental orders regarding increased production in a most efficient manner.

"The present need is to maintain the splendid acreage of winter wheat crop of 1917, or to increase it where it can be done without too great risk. It is almost too much to hope for to anticipate another year of such prospects, and in order to equal the production this year, it would be wise to increase the acreage."

## LARGE SAVING IN WHEAT EFFECTED

Thrashing Committees Prevent Loss  
Common in Past Through Careless Handling of Grain

Reports from over Indiana indicate that the efforts of the thrashing committees operating under Dr. Harry E. Barnard, federal food administrator, are affecting a large saving in wheat, here-to-fore lost through careless handling or defective machinery. Thrashing machine parts have been provided where recommended by a competent inspector and many farmers have purchased tarpaulins for their wagon-beds. In this connection Dr. Barnard has received the following message from Capt. K. D. Hequem-bourg, of the grain thrashing division of the food administration:

" Cecil Barnes, of the states administration division, United States food administration, Washington, D. C., has forwarded us a copy of the bulletin on thrashing, issued by you. We wish to commend you for the able manner in which you have brought this matter to the attention of the thrashermen and feel confident will result in a considerable saving of grain."

A committee of experts representing the state organization is making a careful canvass of each county with a view to selecting the best fields of wheat for seed. In this manner and by the fertilization and preparation of the seed bed it is hoped by the organization to maintain a high average yield of wheat in Indiana for so long a period as the emergency requires.

## SECOND INDIANA MAY BE DISBANDED

Indications Today are That Artillery Unit May Never Be Called for Active Service

## DISCHARGES BEING GRANTED

The possibility of the Second Indiana Field Artillery foregoing a triumphal return from the battle fields of France, loomed up today when semi-official statements pointed to the fact that as a unit, the chances for the regiment to see service are growing smaller.

A dozen Rush county men are included in the number enlisted in the regiment who on various occasions have attempted to obtain discharges from the unit in order that they might enlist in another branch where more speedy service would result. Previous efforts have been in vain however because the officers of the regiment apparently were confident that the artillerymen would be called to camp early in the summer for training.

Statements to the effect that several discharges have been granted during the past few days are current and it is the belief of men enlisted in the unit, that the regiment will be disbanded and the officers who have been in training at Westpoint, Ky., will be sent to various national army cantonments through the country.

## TO ACCEPT RECRUITS FOR MARINE CORPS

V. Canares, Advance Agent For Show, and Two Marines From Indianapolis to be Here Tomorrow

## REGISTRANTS MAY ENLIST

V. Canares, advance agent for the MacTaff Stock company which will be here next week, is doing his bit by acting as a recruiting agent for the Marine Corps and announces that two Marines from the Indianapolis recruiting station will be here tomorrow, when volunteers in this branch of the service will be accepted. Mr. Canares says that all advance agents for shows are engaged in some sort of patriotic work, most of them acting as recruiting agents for some branch of the army or navy service.

The Marines will come from Indianapolis on motorcycles, and together with Mr. Canares, will be at the postoffice all day. The Marines form a branch of the service which makes a special appeal to red-blooded young men. It was the Marine Corps which stood the brunt of the recent German attack on the Marne.

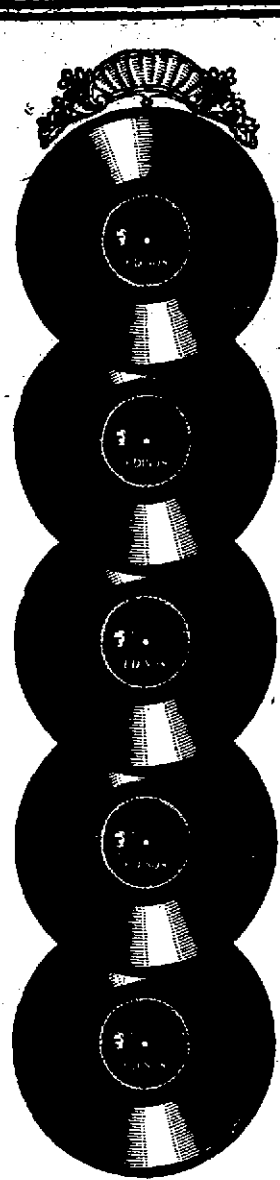

Military registrants not in the current quota may enlist in the Marines, but before they will be accepted, they must have a statement from the local board showing they will not be included in the next army call. Transportation to Indianapolis will be provided for all volunteers whose examination shows they are physically fit.

## OTTO GRIFFIN IS NEW POSTMASTER

Appointed For Carthage Office by President Wilson After Competitive Examination

## THREE OTHER APPLICANTS

Otto Griffin, who has been employed in the Carthage postoffice for several years, has been officially appointed postmaster of that office. Since the death of Postmaster J. E. McCarthy two years ago, his brother Omer McCarthy, has been operating the Carthage office as postmaster pro-tem. The appointment was made yesterday by President Wilson following a competitive examination in which four applicants participated. The appointment is for a four year term. The number of applicants for the Carthage office was greater than for any similar position among the smaller offices for some time. It usually happens that two applicants for the appointment complete the number.

## LOCAL ATTORNEYS AT STATE MEETING

Attend Twenty-Second Annual Session of Bar Association Held in Indianapolis Today

## L. M. GARRISON WILL SPEAK

Local attorneys attended the twenty-second annual session of the State Bar association which opened this morning at ten o'clock at the Indianapolis Country club.

Following the initial session during which the business affairs of the association were discussed, an informal luncheon was served, and at the close of the afternoon session, the officers for the coming year were elected. The annual dinner will be served this evening after which the address which will be the feature of the meeting will be delivered by Lindley M. Garrison, former secretary of war on the subject, "After the War—What?"

Donald Smith, Judge Will M. Sparks, John A. Tittsworth and Douglas Morris, members of the association of this city, attended the sessions.

—Miss Hannah Morris has returned from Charlevoix, Michigan, where she is spending the summer, for a short visit with her parents Mr. and Mrs. Douglas Morris.

—Mrs. Warder Wyatt and family will leave tomorrow for their cottage at Bay View, Mich., where they will spend the summer. They will be joined next week by Mrs. Lon Link and Miss Elizabeth Pierson for an extended visit.

—Miss Barbara Schmidt and Miss Maude Schmidt have returned to their home in Newcastle, after spending several days in this city as the guests of their sister, Mrs. Fred Beale. The Misses Schmidt will leave Saturday for Chicago, where they will take a six weeks course in chautauque work.

## ASSASSINATION ONE STEP IN RUSS PLOT

Terrorists Plan to Wipe Out German Military Clique After Killing Mirbach

## HOPE TO SPREAD TO GERMANY

(By United Press.)

Stockholm, July 10.—Assassination of Ambassador Mirbach was only the step in a plot by Russian terrorists to wipe out the entire German military clique.

The plot was to kill Mirbach and then send terrorism into Germany to kill the kaiser, Ludendorff, Hindenburg and Kuehlmann.

The plot appeared so improbable and but the wildest of dreams, and does yet. But Mirbach has been killed.

A definite alliance between the Bolsheviks and Germany against international opposition and the entente has been reported.

## SUNDAES ARE BACK AGAIN

Candy Kitchens Use Syrups and Honey in Lieu of Sugar

Sundaes have again made their appearance in local candy kitchens and may be consumed without people having the least twinge of conscience in regard to the sugar shortage.

When the food administration placed a ban on all dishes which required the use of syrups made from sugar a period passed during which very few dishes with the exception of plain ice cream and sodas were served, but with natural initiative a way out of the difficulty was found and now substitutions have been found in the form of corn syrup, honey and glucose which answer the purpose excellently and make rich dressing for the various delicacies which are served.

## Cities Must Help Farmers

In any American city it may come to pass that men who know how to chop wood or pick cotton or harvest wheat will have to close their offices and stores during the periods of seasonal strain and come out and help the farmers. All the other countries at war have done that and we must do it if the need appears. —Clarence Osley, Assistant Secretary of Agriculture.

## NOTICE OF SALE OF REAL ESTATE

Notice is hereby given that the undersigned as receiver for The Rush County Fair Association, appointed by the Rush Circuit Court, will, on SATURDAY, AUGUST 3rd, 1918, at 2 P. M. at the north door of the Court House in the city of Rushville, Indiana, offer at public sale to the highest bidder, the following described real estate in Rush County, Indiana, the property of said Rush County Fair Association, to-wit: Commencing at a point in the south line of the right of way of the I. & C. Traction Company, said point being in the West line of the east half of the southwest quarter of Section 23, Township 14, north, Range 24 east; thence north 20 degrees east along the South line of the right of way of said traction company a distance of 635 feet to the line that new divides the Rush County Fair Association grounds from the farm known as the Rush County Fair Association Farm, and owned by Rush County, Indiana; and both lands are located at this time in the south along the said division line a distance of 267 feet to the center of the Louisville and Nashville Turnpike; thence south 12 degrees east a distance of 1333 feet and 8 inches to the corner of a hedge fence and which said hedge fence divides the lands of said fair association from the east from the lands of Joseph Ames on the west; thence north 80 degrees east a distance of 994 feet to the south line of the right of way of said traction company; thence north 80 degrees east a distance of 635 feet to the place of beginning containing 24,656 acres, more or less, excepting 1,533 acres on the east side thereof and which is described as follows: Commencing at a point in the south line of the right of way of said I. & C. Traction Company that is north 20 degrees east 635 feet from the line of the east half of the southwest quarter of Section 23, Township 14, north, Range 24 east; thence north 80 degrees east to the corner of the Nashville and Vienna Turnpike; thence south 79 degrees and 30 minutes west along the corner of said turnpike a distance of 4 rods and 6 links; thence north 80 degrees east to the line of the right of way of said traction company; thence north 80 degrees east a distance of 6 rods and 6 links to the place of beginning; containing 1,228 acres, all of said land is located in the southwest quarter of Section 23, Township 14, north, Range 24 east, and the northwest quarter of Section 4, Township 12, Range 24 east. Said sale will be for cash; free of taxes and immediate possession will be given and the purchaser will be bound to pay the taxes on the I. & C. Traction and C. I. & N. Y. tracks on the north.

The tract has a number of valuable buildings on it, suitable for residences and other purposes and is a most attractive location for suburban residence. It is well watered and subdivided into small tracts. A plot and corner of the ground have been made and an abstract of title will be furnished.

For further particulars apply to the Association, or to the receiver, or to the undersigned, who will be glad to answer all inquiries and to accept bids for the same.

The Rush County Fair Association, by its Receiver, J. H. Hargrove.

## Doctors Urge People to Use More Iron and Phosphates

### They Come Out Strong For Phosphated Iron

Leading doctors all over the country are rapidly learning that one of the preparations they can always depend on for all blood and nerve troubles is Phosphated Iron, they have found that it gives results and can be depended upon.

Phosphated Iron has proved a real red blood and nerve builder in the Spring season when so many are all run down and dragged out, due to lack of fresh air, exercise, green foods and clogged poisoned blood. Scientists say Phosphated Iron builds up your body by building up your blood and nerves, and many physicians claim there would be few over-worked men, nervous women, bloodless old people and pale children were the benefits of Phosphated Iron more widely known, that there is no need of anyone going around tired out, all in, nerves on edge, suffering with poor blood and lack of energy when Phosphated Iron will make you feel like a live one, make you look 100 per cent better, give you restful sleep, brace you up so you can work with ease and enjoy life once again.

Get Phosphated Iron today and start in right, you owe it to yourself and friends.

To insure physicians and their patients getting the genuine Phosphated Iron we have put in capsules. Do not take pills or tablets. Insist on capsules.—PITMAN & WILSON and leading druggists everywhere. Rushville, Ind.—(Adv.)

### The American Cow in War Times

The American cow is doing her bit in the great war. She has contributed one hundred dollars worth of her products to the exports of the United States in the last year, nearly all of it going to the "boys in the trenches" chiefly in the form of condensed milk. A compilation by The National City Bank of New York shows that the quantity of condensed milk exported in the fiscal year 1918, ending with the current month, June, will approximate 500 million pounds against 260 million pounds in the fiscal year 1917, 160 millions in 1916 and but 37 millions in the fiscal year 1915. The stated value of the condensed milk thus exported aggregates for the fiscal year 1918 about 70 million dollars, and when we add the other contributions of the cow, butter and cheese, the total value which she has contributed to the exports, including supplies sent by the government, will aggregate in round terms 100 million dollars against 50 millions in 1917, 25 millions in 1916, 13 millions in 1915 and less than 3 millions in the fiscal year 1914, all of which immediately preceded the war. These figures are necessarily in very round terms, especially those for the fiscal year 1918 for which the record is not yet complete.

The bulk of this large and rapidly increasing exportation of dairy products goes to the men in the trenches. Of the 400 million pounds of condensed and evaporated milk exported in the nine months ending with March, for which detailed figures are available, 178 million pounds went to Great Britain whence it was presumably passed to the men on the battlefield; 70 million pounds direct to France; 17 millions to Belgium; 11 millions to the Netherlands; 20 millions to Cuba; 10 millions to the Philippines; 10 millions to China and Japan and 10 millions to British South Africa.

Butter and cheese exports in the fiscal year 1918 show a marked decline when compared with 1917, while condensed milk on the other hand shows a marked increase. The quantity of butter exported in the nine months ending with March 1918 was but 12 million pounds against 25 millions in the same month of 1917, and of cheese 12 million pounds against 43 millions in the same month of the preceding year.

The large quantity of milk used in the production of this million pounds of the condensed article sent out of the country in the fiscal year 1918 was produced chiefly in the stretch of country fronting the Great Lakes: New York, Michigan, Northern Pennsylvania, Ohio, Indiana, Illinois, and Wisconsin. The largest part was from the dairy farms and condensed milk factories in New York, next in importance from those of Wisconsin, but in less quantities from the other states above named, while considerable quantities have also been supplied from Utah and the Pacific coast.

The value of the condensed milk exported from the United States in the fiscal year 1918 actually exceeds the value of all the condensed milk

**THIS DAY IN THE WAR**

#### The Big Parade

Talk about your big parades:  
I've got one in my mind  
That puts to shame the Caesars' shades,  
And leaves the stars behind—

It passes 'neath the linden trees  
And over Wilhelm street,  
With banners waving in the breeze,  
And tramp of marching feet.

I see the British Union Jack,  
The noble flag of France,  
The Belgian red and gold and black,  
Floats by before my glance.

I hear the highland Scottish pipes,  
And—what is this I see?  
Ahead of all—the Stars and Stripes,  
The ensign of the free!

Here's to The Day when this parade  
Shall march through old Berlin,  
To make all autocrats afraid,  
And welcome Freedom in!

#### Lights Ho!

Mr. McAdoo, twice married, displays astonishing ignorance of the technique of proposals.

"When he kneels to propose, walk around behind and see whether he wears half soles," says the secretary. Blandly assuming that there would be light enough to see half soles by! Overlooking his other faulty assumptions on this matter entirely, it is difficult to understand how Mr. McAdoo ever became the distinguished son-in-law.

Doe Davis, the kaiser's dentist has received many suggestions on how he might have made the world safe with a pair of forceps, at the risk of his own life. But discretion and valor both might have been served if Doe had planted a mine in the kaiser's molar crown, and attached a time fuse, dated a month ahead.

Hun efficiency in evil doing has not overlooked the deadly open-face sneeze. The Germans are shooting sneezing powder at the Americans on the theory that the Americans don't know about handkerchiefs, and will slaughter each other with clouds of germs. Bad guess again, kaiser bill!

produced in the entire country in 1914, the latest census year.

Report has it that federal authorities have removed from a safety deposit vault in New York \$350,000 worth of precious stones. It is said that they form part of the Russian crown jewels and that they were placed in the vault by the wife of a man posing as an American army lieutenant. It sounds like a tale from the Arabian Nights and a Sherlock Holmes story rolled into one.

"Closed on account of sickness" is a sign observed on a Chicago drugstore. We always supposed that sickness was the very thing which kept the drug stores open.

A war savings stamp is the only thing you can buy with the utter certainty that it will be better in five years than it was the day you bought it.

That Missouri hog that coughed up a dollar upon being kicked was a mischief-maker in his tribe. Everybody will be "kickin' my hog around" now.

You don't need even a foot of earth to raise a canned garden—in fact the less dirt the better in home canning.

## War Hints — War Helps — War Duties

(Compiled and Condensed for the Indiana State Council of Defense by George Ade.)

Once there was a fellow who robbed his grandmother and after that he kept sinking lower and lower in the social scale until finally he wouldn't even back up his own country in time of war.

Dr. Harry Barnard, food administrator for Indiana, says that the Hoosiers are a mighty cheerful lot of patriots when it comes to obeying regulations. You know, war bread tastes a good deal better if you treat it as a friend.

Keep the flag flying over the wheat bin and the sugar bin.

The State Council of Defense at the meeting last week adopted a resolution asking banks and trust companies to assist in protecting citizens against "wild cat" stock companies that are trying to exchange beautifully engraved certificates for Liberty Bonds. Put your government securities in some fire-proof place where moth and rust cannot corrupt nor promoters break through and gobble.

Does Germany begin to suspect the greatest "bone-head play" in all history was to bring into the war a nation of 100,000,000 people controlling vast natural resources and saturated with latent abilities to produce and organize? Whatever the war may have cost you in money or the sacrifice of private convenience, aren't you repaid when you read that we have a million men in France and that we launched 100 ships in one day? If we ever learn to really "get together" and produce to the limit and practice economy and go after big objectives under the advice and direction of experts, what chance will Germany have, in the world-markets, after the war? Whatever you do in support of your government just now, remember that you are not only helping to fight back a murderous attack but you are laying the foundations of a new and bigger and better America.

Probably the most important discovery since Columbus landed in 1492 is the discovery by Indiana housewives that sirup can be used instead of sugar, even for preserving and jelling.

All the wheat produced this year cannot be marketed for weeks to come, so those who can stack it and postpone threshing, or those who have good tight bins and can store the grain, are asked to exercise a little patience and not expect cash returns at once. Federal Reserve banks stand ready to give financial assistance to every wheat producer until the markets can absorb the 1918 crop.

Indiana women must secure and sign certificates for their canning and preserving sugar. All sales will be regulated by certificates except the regular three pounds per person per month for household consumption. If you live in town you can buy two pounds at a time for family use. If you live in the country you can get five pounds at a time. The woman who wishes to get the extra sugar for canning purposes must tell how much sugar she has on hand and whether she has previously obtained a supply for canning or preserving. After she gets through there won't be any secrets between her and the food administrator or his deputy. She cannot have the sugar delivered to her until this official has put his O. K. on the order. The new regulations are in effect in every state. If some one says that "Over in Illinois they're getting all the sugar they want," just go over to Illinois and try to get it.

We are eating twice as much cheese as we were a year ago. In the British Army, cheese has been approved as an admirable substitute for meat. Mr. Hoover will not scold you if you eat cheese.

A nine pound girl was born to the wife of William Burgess, 405 North Arthur street yesterday. The child has been named Thomas May.

## ADOPT MEASURES TO PREVENT LOSS

Owners and Operators of Places  
Where Food is Stored Must  
Exert Every Effort

BY ORDER OF FOOD OFFICIALS

Misunderstanding Concerning Sales  
of Various Products is Cleared  
by Administration

Special notice has been sent to every county food administrator in the state by Dr. Harry E. Barnard, federal food administrator for Indiana, advising that the United States Food administration insists that owners and operators of all places where food is stored or handled, exert every effort to prevent fire losses; that it will hold the owners and operators of such places responsible for the necessary protection of the food placed in their hands pending its use at home or abroad as a munition of war; and that all elevator owners and others who are assisting in moving crops of wheat and other small grains be so notified.

"The new beef regulations have brought up the question of the weight limit to be placed on veal," said Dr. Barnard this morning, "and under present rulings no butcher shall be allowed to offer for sale any carcass weighing over 150 pounds. Any carcass weighing in excess of 150 pounds is classed as a yearling. This applies to sales to housewives as well as to public eating places."

Also to clear up any misunderstanding among grocers relative to the sale of pancake flour, Dr. Barnard advises that they may offer for sale without substitute any prepared pancake flour containing 50 per cent substitute which they may have in stock, but any new pancake flour must contain 66 2/3 per cent substitute.

Dairymen will be interested in the regulations just issued by the Food Administration which will exert a definite control of margins of profit, commissions and resales by dealers in cold storage butter.

It will no longer be possible for the dealer to figure the cost of his goods at the price he would have to pay to replace them. He must add not more than the definite margins specified by the Food Administration to the actual cost, which can include nothing more than the purchase price, transportation charges if any, actual storage and insurance charges, interest or money invested at the current rate while the butter is in storage, and the actual cost of printing if the butter is put into prints from tubs or cubes. No allowance is made for shrinkage. Cold storage butter is butter that has been held in a cold storage warehouse for more than thirty days.

Maximum margins that may be added by the dealer are fixed, but that does not mean that he may always take the full amount, even on a rising market. These margins are to prevent speculation, and are purposely made wide to provide for any cases where the expense may be unusually high. The margin taken must never be more than enough to give the dealer a fair or reasonable profit. The maximum margins are 1c a pound on carloads, 1 1/2c on less than a carload and more than 7000 pounds, 1 3/4c on lots of from 700 to 7,000 pounds, and 2 1/4c a pound on sales less than 700 pounds.

If the butter is held in storage not less than two calendar months dealers are permitted to add not

## PUNY, WEAK BOY

Made Strong and Well by Vinol  
Why It is Best For Children

Williamson, W. Va.—"My little boy was weak, puny and tired all the time, did not want to do anything. Vinol was recommended and it has built up his strength and made him healthy."—Harley Clay, Williamson, W. Va.

The reason Vinol was so successful in this case, is because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, rundown system make rich red blood and create strength.

F. B. Johnson & Co. and Druggists Everywhere.—(Adv.)

## BIG BUSINESS MEN ADDRESS MEETING

Men Attending World Advertising  
Convention Hear Representa-  
tives of Large Concerns

START CONVENTION BUSINESS

Interest in Race for Next Year's  
Convention Gathers Momentum  
as Fight Is Waged

(By United Press.)  
San Francisco, July 10.—The Associated Advertising Clubs of the World, in convention here, got down to their own business today after spending most of two days on the nation's business.

Big larger executives representing most of the larger industries and localities of the United States were before the convention today with their ideas.

Among the events today were addresses by these men:

Gerrit Fort of the railway administration.

Merle Sidener, chairman of the national vigilance committee of the Associated Advertising Clubs of the World.

George W. Hopkins, Columbia Graphophone Co.

William H. Ingersoll, Ingersoll Watch Co.

E. C. Tibbitts, B. F. Goodrich Rubber Co.

Truman A. De Weese, Shredded Wheat Co.

The Rev. Mark Allison Matthews, pastor, First Presbyterian church, Seattle.

Charles F. Berg, Portland, Ore., Ad Club.

Interest in the race for next year's convention was much keener today. A committee, appointed last night, canvassed the situation before deciding between New Orleans, New York and St. Paul, the principal contenders.

## DENTISTS OF EASTERN INDIANA WILL MEET

Local Members of Association Notified  
of Social Event to be Held  
at Connersville

IS THE FIRST OF ITS KIND

Dr. P. H. Chadwick, as head of the Rushville members of the Dentists Association of Eastern Indiana, has been notified of the first annual social meeting of the organization which will be held in Connersville Wednesday, July 17.

For the first time since the initial session of the organization, the affair has taken on a social side and the proposed meeting will be in the form of a picnic which will be given in the vicinity of Connersville. Aside from Dr. Chadwick, Rushville members of the association who have taken an active part in the organization include Dr. Carl F. Behr, Dr. Verl Bebout and Dr. R. F. McClannahan. An effort is being made among the executive committeemen of the association to make the affair an annual one, the life of which, however, will depend largely upon the success of the proposed meet.

more than 1c a pound and 1c a pound additional for each calendar month thereafter, but the total must not exceed 2c a pound in any case.

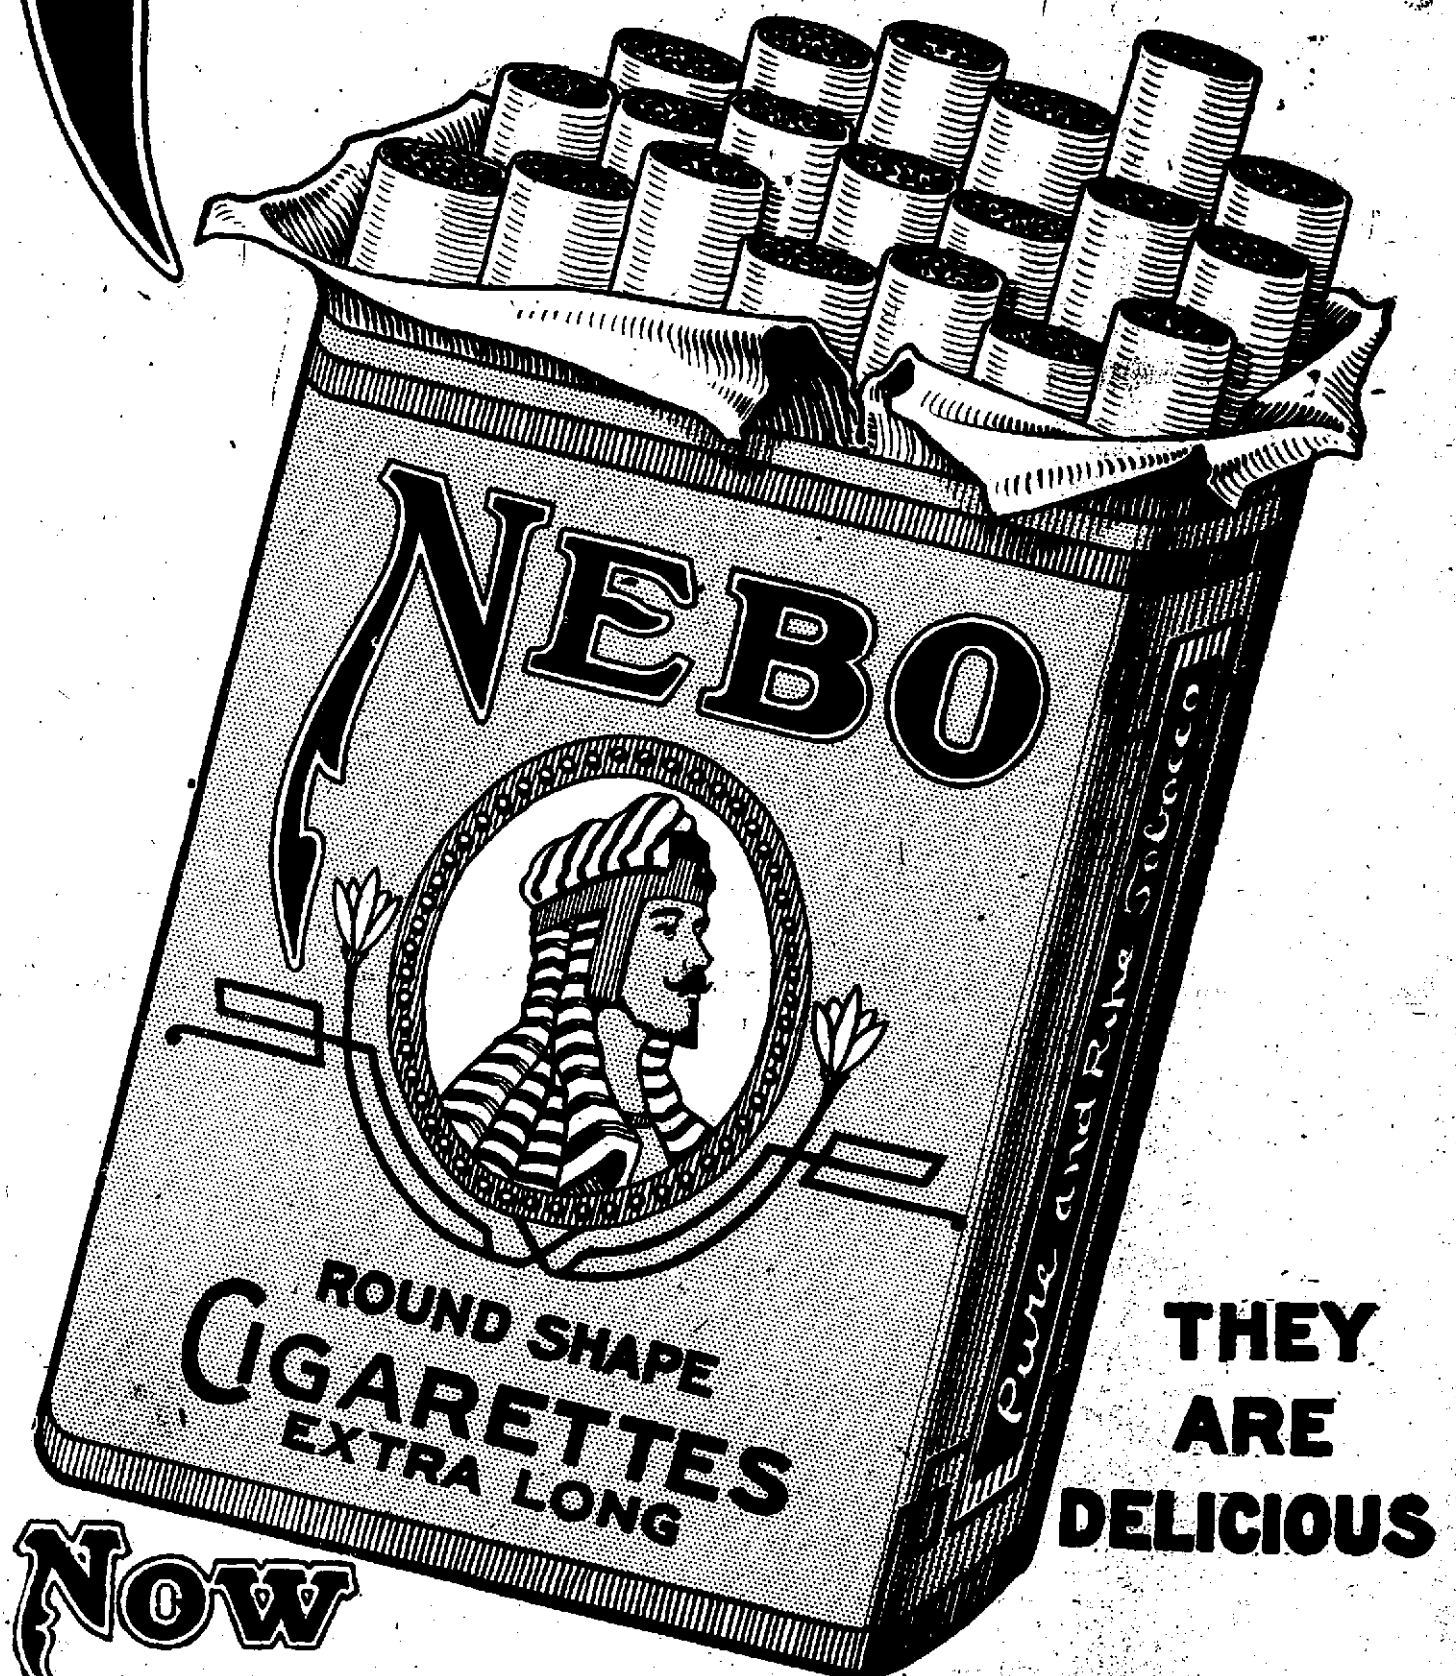

If one dealer sells to another at a price higher than prevails on the open market on which he could have bought, the deal will be considered as a collusion and a violation of the rules. When a manufacturer does the work of a wholesaler or jobber, the rules applying in these lines of business apply to him. The new regulations specify the method or figuring costs in such cases.

Commission merchants cannot charge more than 1c per pound for selling cold storage butter without violating the Food Control Act or these rules. This charge must be included in the margin allowed over cost.

In general, the butter must be kept moving to the consumer in as direct a line as practicable and without unnecessary delay, and no profits must come to dealers without corresponding service.

## BEE EXPERT WILL VISIT RUSH COUNTY

Will Hold Meetings in Every Section  
in the Interest of the Production  
of Honey

MOVEMENT TO SAVE SUGAR

With Rushville and Rush county becoming more self-supporting with the passing of each season, another scheme has been devised whereby the county will be able to produce a greater percent of their sweets and thus aid materially in the conservation of sugar.

Farmers especially are becoming greatly interested in the production of honey as a sweet which they propose to substitute almost entirely for sugar and in order that their work may be done effectively, the government has appointed a bee expert to this section of Indiana

who will visit the county in the near future and assist those people who have hives of bees in securing the best results from their undertaking. E. G. Baldwin will visit Rush county soon under the direction of the United States agricultural bureau and will hold meetings in all parts of the county where there is an evident interest in honey production. The work here will be done under the direction of the county agent, who has asked that persons interested in the production of bees and of their care especially during the winter season, make their wish known to him in order that he may arrange the schedule of Mr. Baldwin while in this county accordingly.

Mrs. Harrison Levi who has been an inmate of the Robert Long Hospital in Indianapolis for two weeks, is steadily improving. Following an illness last winter, the patient became blind but under the present treatment has recovered her sight.

## WALNUT WOOD SUPPLY DEPLETED IN INDIANA

According to Forest Experts, The  
Supply Will be Gone at the  
End of Three Years.

DEMAND FOR WAR PRODUCTS

(By United Press.)  
Indianapolis, Ind., June 29.—The supply of walnut wood in Indiana, the richest state in the nation in this class of timber before the war, is rapidly being depleted. Within two or three years, according to forest experts of the federal government, the entire supply will be gone. The first great demand for walnut wood came immediately after the war broke out in 1914 when the allies wanted walnut wood for gun stocks. This demand kept constantly growing until the United States entered the war and since that time

this country has been purchasing practically all the walnut it can lay hands on.

Persons still having a supply were warned today by government agents against buyers of this wood who represent themselves to be purchasing it for the government when they merely represent private interests and are attempting to get hold of the supply at a cheap price.

WANT ADS BRING RESULTS

# Society

Numerous social affairs are being given this week, honoring Dr. F. A. Finlaw, who will leave Friday for Camp Greenleaf, Fort Oglethorpe, Ga., to enter military training. Dr. Finlaw, who has resided in Arlington for the past few years, has been commissioned in the medical department of the United States army for some time, but just a few days ago received word to report at Camp Greenleaf. An entertainment, honoring Dr. Finlaw, was given Monday night at the home of Russel Northum in Arlington, and last night, the home of A. R. Bunday was the scene of another pretty party, complimenting the departing physician.

The regular meeting of the Psi Iota Xi sorority was held at the home of Miss Marian Sparks in North Main street, last night, when about twenty members and visitors were entertained. Several unique and interesting plans for raising war money were discussed, but nothing definite was decided. The charitable activities of the chapter are always extensive, and the members are working hard to obtain their share of the amount pledged by the entire organization, for this year. Following the business period, the guests enjoyed a social hour.

The skating rink in South Main street was the scene of a delightful social affair last night when an informal dance was given, at which more than sixty couples were entertained. An excellent orchestra which furnished the varied dancing program was seated in the center of the large pavilion, about which scores of dancers spent a pleasant evening. Guests from Shelbyville, Greenfield, Greensburg and Cornersville were included in the party. The affair was given under the auspices of John Walker and B. O. Wills.

Mr. and Mrs. Phil Wink entertained at their home in North Harrison street last night with a delightful picnic supper. Covers were laid for Mr. and Mrs. Claude Cambern, Mr. and Mrs. Donald Smith, Dr. and Mrs. Carl Behr, Lieut. and Mrs. Wendell Wilkie, William Behr, and Lewis Smith.

The members of the Always Present class of the Main Street Christian church will meet with Miss Gladys Tittsworth, at her home in North Main street, tomorrow night at eight o'clock. Officers will be elected and every member is urged to be present.

The Young Women's Mission Circle of the Main Street Christian church will meet with Mrs. Ida Barringer tonight at her home in North Perkins street. The meeting will begin at 7:30 and all members are urged to be present.

The regular meeting of the Woman's Missionary society of the Main Street Christian church will be held

## Social Calendar

### Thursday

Missionary society of the Little Flatrock church, in the afternoon, in the church.

Regular meeting of Ladies' council of Pocahontas in the Red Men's hall, in the evening.

Piano recital by pupils of Miss Olive Buell in the Presbyterian church, at three o'clock in the afternoon.

Catholic Ladies Aid society with Mrs. Charles Moorman, west of the city, in the afternoon.

Grand club with Mrs. Ella Hadley, in North Main street, in the afternoon.

Always Present class of the Main Street Christian Sunday school, with Miss Gladys Tittsworth in North Main street, in the evening.

Women's Missionary society of the Main Street Christian church, in the afternoon, in the basement of the church.

Ben Davis C. W. B. M. with Mrs. J. D. Austen in the afternoon.

in the church parlors, tomorrow afternoon. A good attendance is desired by the executive committee.

About fourteen guests will be entertained with a pitch-in supper and slumber party tonight at the home of the Misses Jessie and Mary Anderson south of the city.

The members of the Grand club will be entertained tomorrow afternoon by Mrs. Ella Hadley at the home of her brother, Theodore Read, in North Main street.

The members of the Ben Davis C. W. B. M. will be entertained by Mrs. J. D. Austen tomorrow afternoon, at her home near Maury.

The choir of the First Presbyterian church will meet for rehearsal Friday night in the church.

## Red Cross Notes

The Ladies of North Noble township will meet in the Applegate school house, Friday afternoon, to do Red Cross work.

## NEW MINISTER IS PAN-GERMAN

Continued From Page 1  
than fifty-six pounds to the bushel. The price for No. 3 is \$2.04 a bushel. The reduction of the standard is equivalent to raising the price four cents on the bushel, because much wheat which would have graded No. 3 last year this year grades No. 2, and in some rare cases this year, wheat will grade No. 1 whereas under last year's standards it would have graded No. 2.

Farmers differ as to what the average yield for Rush county will be. While some farm crops have reached thirty bushels, the case is rare where this unusual average is made. Many believe that the average for the county will not run over twenty bushels to the acre, while others believe it will go as high as twenty-five bushels. Should the county average reach twenty bushels, farmers would be well pleased because this would be much better than it has been for years.

Rye which is threshed now will have to be held for a time because the government wants to move the wheat first to relieve the shortage which exists. Most farmers prefer to keep their rye, if they have a place to store it as there is no fixed government price. The price is lower now than it was a few months ago and many grain men predict it will be much higher.

Only Three More Days! Thursday, Friday and Saturday

# CASADY'S July Clearance Sale

Far be it from us to exaggerate or make any statements that are not going to be a credit to us. So when we say, attend the last days of this sale, take our word, there is no need hesitating. Come—it will pay you and pay you big.

Throngs of foresighted women took early advantage of this clearance sale of Coats and Suits. A good selection still remains and the prices have been reduced still lower for the last days of the sale.

## COUNTY REPRESENTED AT GREENSBURG TODAY

Coal Dealers and Administrators Hold Another District Meeting to Discuss Fuel Questions

## MEETINGS MONTHLY AFFAIRS

Rush county coal forces were well represented at the district meeting of coal dealers and administrators which was held in Greensburg today.

The meetings which have become monthly affairs, show a splendid spirit of co-operation between the administrators and dealers in handling the difficult problems in the coal situation which have arisen in connection with coal shipments and allotments for the coming winter.

The meetings which have been held in many of the surrounding cities have already shown results in that plans have been worked out whereby more speedy shipments have been received.

The subject of rationing coal to householders which was announced recently by the national fuel administration, was taken up at the meeting as a plan designated to prevent the threatened shortage of coal next winter. Although the system will be drastic and new to this country, it will not be more so than the conditions of all concerned demand. No one will be deprived of coal actually needed for heating but no one will

be allowed fuel for waste or extravagance, the fuel administration says.

**Madge Kennedy at Princess**  
There is a laugh for everyone in "Our Little Wife" in which the clever little actress, Madge Kennedy, has the leading part. "Our Little Wife," will be the headliner on the program at the Princess tonight, telling a cheerful and entertaining story about a bride with the bright idea. Pathe News weekly, depicting up-to-date events from all parts of the world, will also be shown. Charles Ray will be here tomorrow in "The Hired Hand," and Mary Pickford will be seen Friday in what is regarded by many as the most successful of her recent pictures, "Mama."

## MORE CONFIDENT THAN EVER

Lloyd George Says Sight of American Troops Increases Hopes

(By United Press.)  
London, July 10.—Premier Lloyd George speaking at a dinner given by the House of Commons declared he is more confident of victory than ever.  
"One of the latest reasons for this confidence is the impression made upon me by the American troops I saw in France," he said. "They are superb, both as regards material and training, and the way they have borne themselves in battle."

## YANKEE VETERAN PRAISES MORALE

Lieut. W. C. Sellers, Nephew of Late  
U. D. Cole of This City, Just  
Back From France

### WILL ACT AS INSTRUCTOR

Comments on Sporting Spirit of  
United States Troops—Inter-  
viewed at Rockford, Ill.

Stories of the absolute fearlessness of American troops on the western front in France, have not been exaggerated in the least, according to Lieutenant W. C. Sellers, nephew of the late U. D. Cole of this city, who is well known here. He has just returned from six months service in the trenches in Lorraine and has arrived at Rockford, Ill., where he will act as an instructor at the fourth officers training camp at Camp Grant. He gave out an interview to the Rockford Morning Star.

"Working with American troops day and night at the front," said Lieutenant Sellers yesterday, "will give any man a wholesome respect for the great sporting spirit that seems to be one of the principles in the character makeup of the United States. Those boys over there are playing the war game to the limit and they are playing it exactly as they would football, baseball or any other national sport. The fact that it is a game with them and that they are absolutely fearless in the face of great danger to a minimum. They won't take war seriously even in the front line trenches but they play it for all that is in them and they play it to win and damn the consequences!"

"The American soldiers on the front have been found as eager as terriers to get at the boche whenever the chance has been offered. It is just that feeling—the terrier's love for his rat—that characterized their fighting."

"The volunteer method of performing duties on the front is a striking example of how the men look at this war. When a call for volunteers comes the men fall all over one another in an attempt to 'go in.' Soon before I came out a call came to my company. The entire company responded and when only fifty men were chosen the language in that trench was blue. The raiding party went over, took a number of prisoners and came back without losing a man, and discussed the raid as they would one period in a football game."

"German man for man, are inferior to the American soldier despite their years of training. We do not underestimate their wonderful discipline but every Yank over there knows that he is a match for the best German on the field. The enemy lacks imagination. He can fight only in certain grooves and when well directed, and he can fight, no doubt about that, when he is told what to do."

"American soldiers in the front trenches excel in marksmanship. Their shooting is the wonder of the front. For the most part the common run of infantryman in the American army can shoot better than the German sniper. While we were in the front lines boche snipers worked constantly but they did little harm. When an American shoots he aims at something and he hits it."

St. Paul, Minn. July 10—Real pigs enjoy cafeteria service.

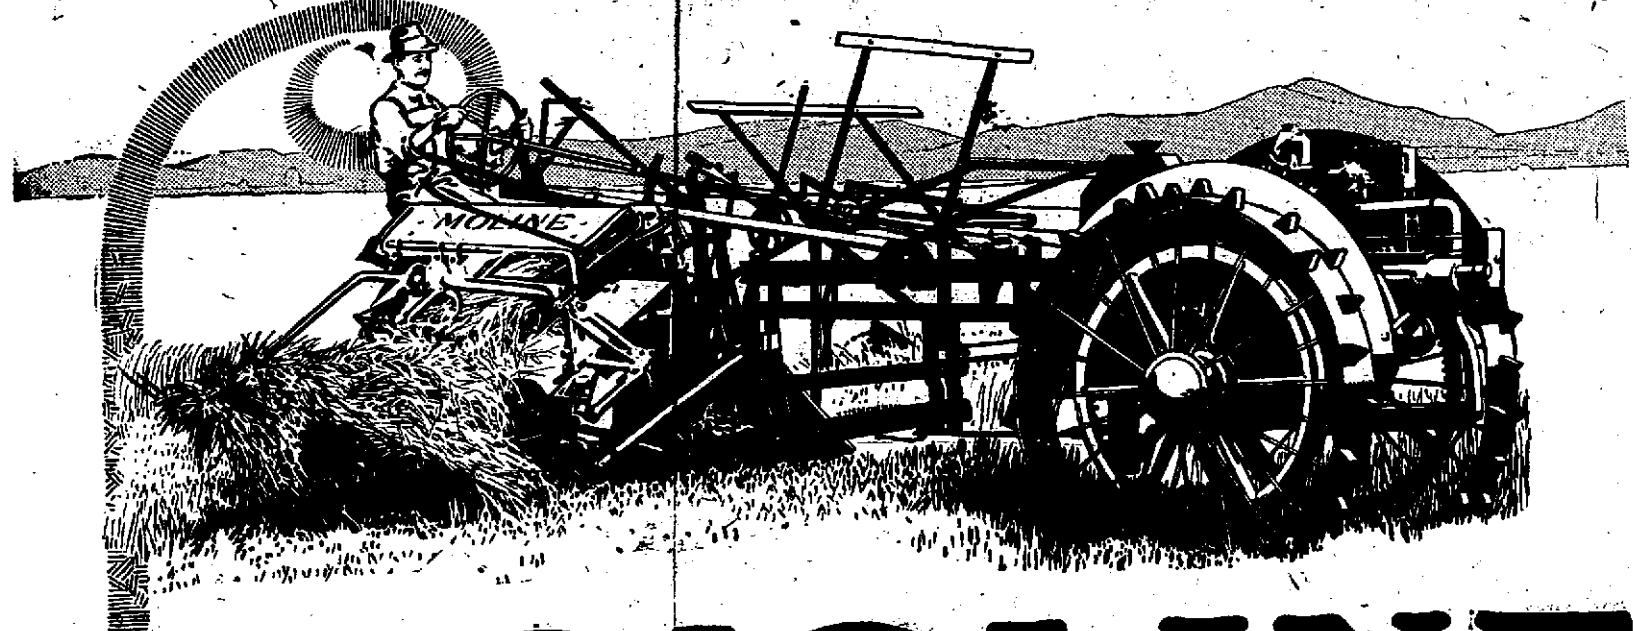

Prof. R. C. Ashby, animal husbandry division, University farm, has proved the efficiency of the cafeteria plan of pig feeding, he says. Prof. Ashby is finishing some of his first cafeteria fed pigs, and finds they gained weight faster and at less cost than handled pigs.

Self feeding devices were installed in the feeding pens to help the farmer solve the wartime problem of labor shortage.

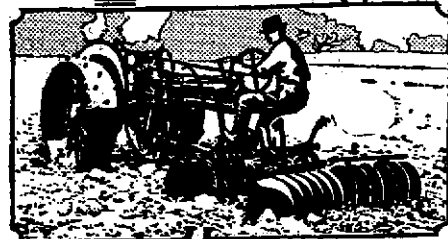

The pigs select their own food in an orderly manner, refrain from crowding in ahead of their turps, do not squeal about what they get, and up to date no cafeteria pig has been seen eating with his knife.

Persons of every level should can, the family in the top flat as well as the dweller in the bungalow.

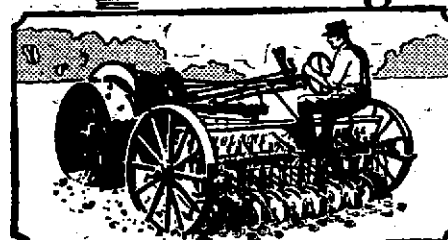

# ONE MAN CAN FARM MORE LAND *with the*

Mowing

## MOLINE UNIVERSAL TRACTOR

*"It Solves the Farm Help Problem"*

**T**WO MILLION MEN will be gone from the farms because of the war—strong, skilled, willing workers, only a small part of whom can be replaced by older men, boys and women. Yet production of food must go on. Production must be increased. There is only one way—equip the men left on the farms so they can do more work than ever before.

With the Moline-Universal—the original two-wheel tractor—One Man can farm more land than was ever before possible, because—

One Man has power at his command equal to five horses, capable of doing the work of seven horses owing to its greater speed and endurance. This power is always available for any farm work.

One Man operates the Moline-Universal Tractor from the seat of the implement to which it is attached, where he must sit in order to do good work.

One Man can start in the spring and go from one operation to another—plowing, harrowing, planting, cultivating, mowing, harvesting grain or corn, spreading manure, filling the silo, cutting wood, etc., doing all farm work from one year's end to another, independently of horses or hired help.

### A Compact Unit

All these one-man operations with the Moline-Universal are possible because it is mounted on two wheels, all its weight is traction weight; it is powerful—pulls two 14-inch bottoms easily—yet it is light so that it does not pack the soil. The Moline-Universal attaches direct to the implement, making one compact unit—the tractor forming the front wheels and the implement the rear wheels. One man con-

trols the entire outfit from the seat of the implement. It has 31 inches clearance—more than ample for cultivating.

### A Woman Can Operate It

One woman or boy operates the Moline-Universal as easily as a man. Miss Ruth Harding of Albion, N. Y., a proud owner of a Moline-Universal, writes: "I have never called a man from his work to assist me with the tractor in any way."

Farmers, everywhere, recognize the Moline-Universal Tractor as the logical tractor, as the best tractor for all conditions, and as the solution of their help and power problems. It fits any size farm.

### Thousands Now in Use

Thousands of Moline-Universal Tractors are now at work under every conceivable condition in all parts of the United States and in Canada, England, France, Sweden, Norway, Denmark, Russia, Italy, Spain, Mexico, Peru, Argentina, Brazil, Cuba, Guatemala, South Africa, Australia. Wherever a Moline-Universal Tractor is sold there is immediately a big demand for more.

### The Largest Tractor Factory

The demand for Moline-Universal Tractors has far exceeded our expectations. We built an enormous factory which is devoted entirely to making Moline-Universal Tractors and three times have erected large additions to cope with the enormous demand. We now have the largest, best equipped, most thoroughly organized, most skillfully manned tractor factory in the world.

Moline sales and service branches cover the country. No purchaser ever is more than a few hours away from Moline service.

The Moline-Universal will solve your help and power problems. It is ready for you now. Write us today for free booklet giving full description of the Moline-Universal and name of your nearest Moline dealer.

## SHIPPERS RELIEVED OF MINIMUM CHARGE

Milk and Cream Dealers not to Pay  
50 Cents on Each Shipment After  
June 25

### TO BE GENERAL INCREASE

Shippers of milk and cream throughout the country will be relieved of the minimum charge of 50c on each shipment, established June 25 by the railroad administration when a general increase of 25 per cent in rates went into effect.

This was effected through co-operation of the food administration with the railroad administration, which had received protests from dairymen that the minimum, which had to be paid on shipments even so small as a single can of milk, no matter how short the haul, would work hardship, particularly in suburban territory near large cities.

The minimum will be done away with entirely as soon as the tariffs can be amended so far as milk and cream are concerned, but the general increase will stand.

## U. S. DEPT. OF AGRICULTURE

## HOW TO CAN

### Greens or Potherbs

A large number of cultivated and wild greens are edible, and when canned make succulent and valuable food for the winter and spring months. Among the cultivated greens are Swiss chard, kale, Chinese cabbage leaves, upland cress, French endive, cabbage sprouts, turnip tops, young, tender New Zealand spinach, beet tops, dandelion, young, tender dandelion, collards, and tender rape leaves. Among the wild greens are pepper cress, lamb's-quarters, sour dock, smartweed sprouts, purslane or "puley," pokeweed sprouts, dandelion, and milkweed (tender sprouts and young leaves.)

Can greens the same day they are picked. Wash clean, sort thoroughly, allowing no foreign weed leaves or other vegetable matter to remain. Rid the greens of all sand, dirt, and dry, decayed or diseased leaves. Place the greens in a crate or cheesecloth and blanch in live steam either in an improvised steamer, or

regular commercial steamer, for 15 minutes. Remove the greens and plunge quickly into cold water. Remove to a freshly scalded pan or other vessel and cut into convenient lengths. Pack into hot jars, add hot water to fill the container, and season to taste. If desired, a few strips of bacon, chipped beef, or olive oil may be added to the greens. Partially seal jars.

Processing with steam under pressure is recommended. Process pint jars 40 minutes under steam pressure of 10 pounds. Seal immediately, cool in a place free from drafts, test for leaks, and store in a dark, cool, dry place.

If the intermittent boiling process is used, boil for one hour on each of three successive days. Loosen the covers before each subsequent boiling, and after each boiling seal completely. Cool, test for leaks, and store.

If the one-period continuous boiling process is used, boil for at least two hours. Seal immediately, cool, test for leaks, and store.—U. S. Department of Agriculture.

—George Mohr of Shelbyville was in this city last night, the guest of friends.

## Children's Dresses

These busy days when you don't have time for sewing these dresses are true economy. The material alone costs very near what we are asking for the dress ready made.

## Fourth Liberty Loan

4 PER CENT  
LIBERTY LOAN ANTICIPATION  
U. S. CERTIFICATES OF INDEBTEDNESS  
DATED JUNE 25, 1918—DUE OCTOBER 24, 1918

The Banks of this country have been called upon by the Treasury Department of the U. S. Government to purchase Certificates of Indebtedness in anticipation of the Fourth Liberty Loan. This bank, believing it to be its patriotic duty to respond to this call, will take its full quota of these Certificates from time to time as the Treasury Department needs funds to finance the war. To the people of this community, who have responded so loyally in purchasing past issues of Liberty Bonds and who expect to take bonds of the Fourth Loan, and to those who may desire a short-time Government investment, we recommend the purchase of these Certificates, which we will supply in denominations of \$500, \$1,000 and upwards without profit to this bank.

We will receive for safe-keeping Liberty Loan Bonds or Certificates of Indebtedness for which service there will be no charge.

## REALTY TRADE BELOW NORMAL

Total Considerations for Period  
Covering Last Half of June  
Amount to Only \$31,460

### HELM FARM SALE INCLUDED

Period Would Set Record If it Were  
Not for the Deal Which Amount-  
ed to \$26,725

Were it not for the fact that the sale of the Helm farm east of the city was recorded the last half of June, real estate sales for that period would have amounted to practically nothing. As it was, total considerations were way below normal, amounting to only \$31,460. Of this amount \$26,725 is accounted for by the sale of the Helm farm. The transfers follow:

Monroe Gloschen and Nancy A. Gloschen, to William M. Bosley part south half of lot 6 in I. P. Root's and A. K. Smith's addition to Milroy, \$1100.

James M. and Nannie Cross, to John D. Overleese, part of lot 3 in the original plat of Burlington (now Arlington), \$1750.

Alonzo L. and Cora M. Stewart, to Arvil R. Herkless, 1/10 of an acre in Rushville Twp., \$25.

East Hill Cemetery Co., to John H. Wright, east half of lot 170 in section 11 of the cemetery, \$85.

Anna P. and Eli B. Collins, to

## APPEAL WILL BE MADE FOR NURSES

Rushville Ministerial Association to  
Urge Preparation For Taking  
Places of Those Abroad

### CAMPAIGN TO BE DECIDED ON

Public Health Nurses Expected to  
Perform Duties of Trained Nurses  
Going Overseas

An appeal will be made to the patriotic young women of Rushville, through the ministerial association, that they enter nurses' school and prepare themselves to take the places made vacant here by the graduate nurses who are leaving in a steady stream for overseas service.

"It is as much the duty of the city's young women to prepare themselves to care for the health condition at home as it is for our men to prepare themselves for action in the trenches," declared Dr. D. I. Lambert president of the association. The matter of placing the movement before the people of the city and the county will be taken up at an early date by the association when a plan of campaign will be decided upon by the ministers.

As the result of the call for nurses for foreign service 37,000 nurses must be relieved for military service and in their places it will be necessary that 25,000 nurses enlist for home service. The effect of a lack of nurses in the country at this time would be disastrous and unless a most strenuous effort is made on the part of the civil population, this calamity cannot be avoided, it is declared.

"Public health" nurses are expected to take the places of the nurses who are enlisting for Red Cross work abroad. In normal times there are 6,000 public nurses scattered about the country caring for families who cannot afford the entire time of a trained nurse. It is to these women that the country is now looking for protection of their health condition and it is solely on them that the country must rely until more women have completed the nurses' course and are competent to take the reins of the health condition of the country in their hands.

Rushville people who can do so, are urged to utilize the services of the visiting nurse wherever possible and to allow private nurses to give their services to the Red Cross. The visiting nurse in this city is highly skilled and is especially trained to supplement the care of the family or to be a trained attendant, teaching them to care for the patient during the time she is not there.

Willma E. Kennedy undivided 2 1/2 of 25 acres in Posey twp. \$1 and transfer of title.

Willma E. and Frederic E. Kennedy to Eli B. and Anna P. Collins the undivided 2 1/2 of 25 acres in Posey twp., \$550.

John F. and Elene Gantner, to Anna C. Wingerter, part of lots 56 and 57 in the original plat of Rushville, \$100 and other considerations.

Ira and Iva Long, to Mollie Mitchell, et al a part of lot 62 in the town of Burlington, (now Arlington) \$500.

Jacob Gross, et al, to Henry O. Gross, lot 4 in Thomas True's addition to Manilla and other real estate adjacent to same, \$1 and partition.

Fred Gross, et al, to Emma Smith, 1.12 acres in Walker twp., \$1 and partition.

Irene Dunn, to Luther J. Nord, undivided 1 of 14 and 2/3 acres in Rushville twp., \$250.

Clara B. Blount, to H. Edward and Marie Gantner, part of lot 38 in H. G. Sexton's heir's addition to Rushville, \$375.

A. L. Gary and C. W. Duncan, commissioners, to Charles Foster \$2.69 in Union Twp., \$8,603.

A. L. Gary and C. W. Duncan commissioners, to George W. Gray 136.66 acres in Union twp., \$18,122.

### RED CROSS CABLES

One of the most curious contributions that has ever reached the American Red Cross is that of \$18.75 from a Sunday school of Chinese children in California to be used for the benefit of Chinese coolies in France.

#### NOTICE OF FINAL SETTLEMENT OF ESTATE.

Notice is hereby given to the creditors, heirs and legatees of E. L. High deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 24 day of September, 1918, and show cause, if any, why Final Settlement Accounts with the estate of said deceased should not be approved; and said heirs are notified to then and there make proof of heirship, and receive their distributive shares.

Witness, the Clerk of said Court, this 3d day of July, 1918.

GEO. B. MOORE, JR.,  
Clerk Rush Circuit Court.

#### Notice of Sale of Real Estate.

The undersigned commissioner, by virtue of an order of the Rush Circuit Court, made and entered in a cause therein pending, entitled "Edward Jackson vs. James F. Linville et al", and numbered 1243 upon the docket thereof, hereby gives notice that on the premises, on

Wednesday, 25th day of July, 1918, at ten o'clock a. m. of said day, he will offer for sale at public auction not less than two-thirds (2/3) full appraised value thereof, the following described real estate, situate in Rush County, Indiana, to-wit:—

A part of the west half of the south-west quarter of section 20, township 12, range 11, commencing at the southeast corner of said half quarter section, thence north to the northeast corner of the same, thence west 44 rods, 5 links; thence south 71 poles and 4 links; thence east to a point 26 poles and 9 links west of the east line of said half quarter section; thence south 91 poles and 9 links to the south line of said quarter section; thence east 26 poles and 9 links to the beginning, excepting therefrom one (1) acre heretofore conveyed to said John C. Linville, which acre is described as follows:—Commencing at the southeast corner of said half quarter section; thence west 8 rods; thence north 20 rods; thence east 8 rods; thence south 20 rods to the place of beginning, said tract after deducting said acre, contains thirty-three (33) acres and ninety (90) poles.

Also beginning fifty (50) rods south of the northwest corner of the east half of the northwest quarter of section 25, township 12, range 11; thence south to the south line of said half quarter section; thence east 80 poles to the east line of said half quarter; thence north to a point 50 rods south of the northeast corner of said half quarter section; thence west to the beginning, excepting from said tract seven (7) acres out of the northwest corner of said tract and containing in the tract hereby conveyed forty-seven and one-half (47 1/2) acres more or less.

Also the south half of the northwest quarter of section 29, township 12, range 11. Also ten acres off of the entire north end of the northwest quarter of the southeast quarter of section 26, township 12, range eleven 11. An eight (8) acre tract of said land and a thirty-four (34) acre tract of said land in situated three (3) miles east and two (2) miles south of Richland in Richland township, Rush County, Indiana, and the remaining fifty-three (53) acres of said land is situated in the extreme

## APPEAL SENT TO ALL HOSPITALS

Asks For the Use of Facilities For Correction of Physical Defects in Registrants

### CONSCRIPTS TO BE TREATED

Medical Aid Will Not be Administered Free Unless Registrant is Unable to Defray Expense

An appeal has been made to all the public and private hospitals in Indiana for the use of their facilities and services of staff members for the correction of physical defects of registrants for military service now placed in Group B. A formal request has been sent out by Dr. Joseph R. Eastman, of Indianapolis, medical military aid to Governor Goodrich, pursuant to an order of Provost Marshal-General Crowder. By giving this patriotic service it is hoped to make thousands of registrants fit for military service whose physical defects are correctible through proper medical attention. Dr. Eastman's communication follows:

"Under the new standard of physical examination governing the entrance to all branches of the armies of United States, it is set forth that no registrant is to be inducted into service who is likely to prove unfit for immediate active duty. This rule excludes many registrants whose physical defects are correctible by surgical operations or otherwise.

"Such registrants suffering from remedial defects are classified under the deferred remedial group (Group B.)

"It is desired by the provost marshal-general that the hospitals of the state of Indiana offer their facilities and the services of their staff members for the correction of the physical defects of registrants in Group B. Many hospitals have already done this; that is, a very large majority of the hospitals of the state have offered to give free hospital service and free services of the members of the staff, thus making it possible for the registrant to secure correction of his physical defect without expense to himself or the government.

"Local examining boards will be instructed to send no registrant for such free service if it is clear that the registrant is able to defray the expense without considerable sacrifice.

"A part of the west half of the south-west quarter of section 20, township 12, range 11, commencing at the southeast corner of said half quarter section, thence north to the northeast corner of the same, thence west 44 rods, 5 links; thence south 71 poles and 4 links; thence east to a point 26 poles and 9 links west of the east line of said half quarter section; thence south 91 poles and 9 links to the south line of said quarter section; thence east 26 poles and 9 links to the beginning, excepting therefrom one (1) acre heretofore conveyed to said John C. Linville, which acre is described as follows:—Commencing at the southeast corner of said half quarter section; thence west 8 rods; thence north 20 rods; thence east 8 rods; thence south 20 rods to the place of beginning, said tract after deducting said acre, contains thirty-three (33) acres and ninety (90) poles.

Also beginning fifty (50) rods south of the northwest corner of the east half of the northwest quarter of section 25, township 12, range 11; thence south to the south line of said half quarter section; thence east 80 poles to the east line of said half quarter; thence north to a point 50 rods south of the northeast corner of said half quarter section; thence west to the beginning, excepting from said tract seven (7) acres out of the northwest corner of said tract and containing in the tract hereby conveyed forty-seven and one-half (47 1/2) acres more or less.

Also the south half of the northwest quarter of section 29, township 12, range 11. Also ten acres off of the entire north end of the northwest quarter of the southeast quarter of section 26, township 12, range eleven 11. An eight (8) acre tract of said land and a thirty-four (34) acre tract of said land in situated three (3) miles east and two (2) miles south of Richland in Richland township, Rush County, Indiana, and the remaining fifty-three (53) acres of said land is situated in the extreme

## PLAN TO ELIMINATE THE SLACKER HENS

Culling Demonstrations Will be Held in Rush County During August or September

### POULTRY EXPERT IS COMING

Poultry culling demonstrations for the elimination of slacker hens will take place in Rush county sometime during next month or September.

This step is being taken in order that the efficiency of the farm poultry stock may not be affected and hens which are not laying be used for food instead of wasting from forty to fifty pounds of grain on them yearly as has been the custom heretofore. A poultry expert will spend three days in this county, explaining methods of culling to the farmers. The dates, however, have not been decided upon for the demonstrations.

It will be necessary to hold from four to six demonstrations in different poultry yards in the county so that those interested in culling the poultry may see how it is done.

### Grand Toast to the U. S. A.

Here's to old U. S., this flag I wave for you,  
And for noble Washington dear  
Flag is waving too,  
Here's to freedom's glory that binds us all true  
And for all our heroes waves Red, White and Blue.

Here's to grand union of our forty-eight states,  
And each star in Old Glory tells we are great;  
Here's to love of Justice that Liberty gave us too,  
And freedom of the ballot under Red, White and Blue.

Here's to everything that makes old U. S. A.  
To free schools, religion and the Y. M. C. A.  
Here's to the Red Cross and father and mother too  
And sisters and soldier boys under Red, White and Blue.

Here's to a grand success on the land and sea  
And may our Navy bring to us a lasting victory,  
Here's to our Sammy boys and they are winners too  
With fliers and diving subs that save

Red, White and Blue.  
**DANIEL WEBSTER TREON,**  
Fairland, Indiana.

It is desirable that hospitals wishing to perform this patriotic service should send to the undersigned a statement indicating the exact number of beds available for this purpose in the given institution; also stating whether such beds will be continuously available.

### A FREE GUIDE TO CANNING

Those interested in canning should send for the Department of Agriculture's bulletin on that subject. It will be sent free on receipt of your postal card request to the U. S. Department of Agriculture, Washington, D. C. It tells all about canning fruits and vegetables in glass and tin and how to make many attractive preserves, jellies and fruit pastes.

Other free Government bulletins tell how to dry fruits and vegetables with home-made equipment.

## URGES BLUE SKY LAW IN INDIANA

David Porterfield, Declares Numerous Oil Stock Companies Sell to Inexperienced Investors

### IS SOLD IN SMALL PARCELS

Usually to People Who Cannot Afford to Employ a Lawyer to Investigate the Investment

Indianapolis, Ind., July 10.—That there are two kinds of oil companies those which are in the business of producing oil and those in the business of producing oil stocks for sale to inexperienced investors, is the assertion of David P. Porterfield, secretary of the Indianapolis Better Business Bureau, in support of the movement which the Bureau has inaugurated for the enactment of a "blue sky" law in Indiana.

Numerous other States now have such laws, providing for officers who pass upon all new issues of stocks and bonds sold in these States, and these "blue sky" commissions now have an effective national organization. They exchange ideas and information relative to new enterprises of various kinds, and oil companies which have obtained the right to sell their stock in these States are few and far between, Mr. Porterfield's investigations have shown him.

For the most part, the Better Business Bureau has found, oil stocks of the kind which are being condemned by the advertising men of the country in a vigorous campaign which they have been conducting, are sold in very small parcels. As a rule, the "investor" usually a person who has not had much experience—puts so little into such an enterprise that he or she cannot afford to hire a lawyer and to go to other necessary expense afterward, even though the investor finds that the company's claims are untrue. It is cheaper to take the loss than to attempt to recover.

### LET POTATOES FIGHT

They Save Wheat When you eat Potatoes

Red, White and Blue.  
**DANIEL WEBSTER TREON,**  
Fairland, Indiana.

It is desirable that hospitals wishing to perform this patriotic service should send to the undersigned a statement indicating the exact number of beds available for this purpose in the given institution; also stating whether such beds will be continuously available.

### A FREE GUIDE TO CANNING

## Insists That Frail, Nervous Women Can Speedily Become Strong and Vigorous

A Vigorous Healthy Body, Sparkling Eyes and Healthy Colored Cheeks Come in Two Weeks. Save Discoverer of Bio-Sera.

World's Greatest Health Builder. Nothing Unless It Gives Women the Joyous Health They Long For.

It is not to be expected here in the United States that women who in two weeks time could make themselves so healthy, so attractive and so well-mind that they would compel the admiration of all their friends.

The vital health building elements of Bio-Sera are all plentifully supplied in Bio-Sera.

Women are ambitious, crave success in life, and wish to look as attractive as they can. Bio-Sera will show no doubt, make up your mind to get a package of Bio-Sera right away.

It costs but little and you can get an original package of any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till you feel better. Then if you don't feel better, take two or three or four and feel twice as strong as before you started. Your money is waiting for you. It belongs to you. For the discoverer of Bio-Sera doesn't want one penny of it unless it builds all claims.

Now to Physicians: There is no secret about the formula of Bio-Sera, it is printed on every package. Here it is: Lactin; Calcium Glycero-phosphate; Ext. Nut. Yeast; Fowl Gelatin; Phosphatidina; Oleoresin Capsicum; Kola.

**Seneca**  
Promises to keep both sides to help cure your chronic bleeding gums. . . . AND DOES IT! Ask your Druggist, or write to Seneca, 2441 Broadway, New York City.

### CHIROPRACTIC

The ONLY science ever discovered for eradication of disease by going directly to the cause. If your case is chronic and have tried everything else without satisfactory results, why not investigate.

### Plenty of Heat and a Big Saving of Fuel

THE Williamson Pipeless Furnace with a single register sends generous warmth coursing all through your home. It saves the bother of stoves and grates and consumes less fuel. Burns hard or soft coal, coke or wood.

#### The WILLIAMSON PIPELESS FURNACE

has solved the heating question on the farm. It can be installed in old or new homes without tearing up the floors and walls for pipes and flues. It goes into the cellar but does not heat it—all the heat goes up through the register—there's no waste.

The Williamson Pipeless Furnace has proved wonderful in hundreds of farm homes. It is well-built and the strong Williamson guarantee goes with it. Come in and see one.

We Sell United States Tires

## Dowagiac Steerable One-Horse Disc

The Dowagiac is in a class by itself, in advance of all other one-horse drills, because it is easily guided. The front wheel is a caster wheel permitting a short turn without lifting the drill and making steering between crooked rows easy. The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn.

COME AND SEE IT.

## POLITICAL HEADS PLAN CAMPAIGN

Democrats Will Follow District Meeting in Richmond With Similar Conventions

### NUMEROUS G. O. P. SPEAKERS

Will Hays, National Chairman, is Keeping Hands on Reins of Activities in Indiana

(By United Press.)

Indianapolis, Ind., July 10—Campaign activities will grow increasingly intense during the remainder of the month, according to the plans of the state committees of the leading parties.

The democrats expect to follow up their district meetings at Richmond with similar sessions at Vincennes, Ft. Wayne, South Bend and other cities. Fred Van Nuys, state chairman, believes this plan of holding sectional meetings where all the leading men of the party in that district may discuss the campaign with candidates, will prove successful.

In the meantime the republicans expect to have their speakers bureau well organized to send out orators to practically every county in the state.

Will Hays, national chairman, is keeping his hands on the reins in the republican campaign as much as possible. During a recent visit to Indianapolis, he conferred with the party leaders in the state regarding the campaign plans. He is also keeping in close touch with the situation through L. W. Henly, state secretary.

The slogan of the Democrats undoubtedly will be "Stand by the President."

They will dwell on eliminating the teaching of the German language in public schools and oppose concentration of power in the hands of the governor by making several offices now elective, appointive by the chief executive.

Republicans will follow the banner of "Win the War Now." In state issues, they will fight for centralization of control and responsibility under the governor by making many offices appointive by him, instead of elective.

The prohibitionists are striving to make capital out of the fact that neither the democrats nor the republicans mentioned prohibition in their platform. They expect many voters to cast their ballots for the prohibition candidates because of the fact that the other two parties did not come out for the national prohibition amendment to the constitution.

### Chance for Men to Enlist In The Signal Corps of Army

An opportunity for men specialized in telephone, telegraph or radio work to enlist in the army is offered by Major Clarence A. Dougherty, Signal Officer of the 84th Division, at Camp Zachary Taylor, Kentucky, near Louisville.

Major Dougherty has received permission from the War Department to induct into the Service about seventy-five men for specialized work in the Division Signal Battalion. The men especially desired are those who have had practical experience in wireless telegraphy, telephone line repairmen, telegraph operators. In addition there are places open for experienced men as follows: 1 or 2 electrical instrument makers, or repair men; 9 cable splicers; 1 or 2 cooks; 1 or 2 cabinet makers; 1 first class stenographer; 1 expert dog trainer.

"The men who make application should have a fair education, but need not be college graduates," said Major Dougherty. "If they speak French or German they are all the more desirable."

"Men within the draft can be inducted into the service provided they have not received orders to report to some definite place. Even though they have been physically examined and classified, they can still be inducted under this arrangement if they have not received their final orders to report."

Any men of these qualifications who desire to enter the service, should call or write Major Clarence A. Dougherty, Divisional Signal Officer, Camp Zachary Taylor, Ky.

## ACCOUNT OF FARM EXPENSES IS KEPT

More Than 2,500 Indiana Farmers Are Complying With Agricultural Committee

### THREE ACCOUNTS IN RUSH

Proper Business Methods Demand That Farmers Keep Books as Well as Other Business Men

More than 2,500 farmers in Indiana are keeping accounts of their farm receipts and expenses and taking annual inventories in a farm record book prepared by the agricultural extension department of Purdue University. Of this number, 2,100 are co-operating with the farm management division and will receive assistance at the end of the year in summarizing their business and in analyzing it to determine what changes can be made to increase the profits. In Rush county three accounts are being kept by farmers in co-operation with Purdue.

The experience of the 500 men who completed accounts last year in this kind of book, shows that it is well adapted to use by Indiana farmers. In addition to the help a man gets from it in studying his farm business, the book is well suited for making income tax returns. Last year a large proportion of the farmers who had to make returns for the income tax guessed at their receipts and expenses, and in practically all cases disregarded the inventories in figuring the income.

This year, since the method of figuring the income in the book conforms almost exactly to income tax requirements, farmers who are using the book can take advantage of the ruling of the U. S. Treasury Department which provides as follows:

"Farmers who keep books according to some approved method which clearly shows the net income and take annual inventories, may if the same method is consistently followed from year to year, prepare their returns in accordance with the showing made by the books and inventories."

Plans are made to get these books next year in the hands of a much larger proportion of the farmers of the state through the banks and in various ways. The increased interest in keeping accounts, which the income tax law has stimulated, has resulted in the distribution of a great many different kinds of farm record books. Many of these are so complicated that an expert book-keeper is almost needed for them and others lack some of the essentials. Farmers can obtain the Purdue book from the county agents or the Purdue Extension Department.

## SOLDIERS GRATITUDE REWARDS WRITERS

Patriotic Plan of Corresponding With Unknown Men in Service Adopted by Rush Co. People

### GEORGIA SOLDIER WRITES

The patriotic plan of corresponding with soldiers in various camps who are virtually without other correspondents, has been adopted by numerous Rushville people and on every occasion has been rewarded with the gratitude of the recipient.

A correspondent whose letters have proven especially interesting, has written to Mr. and Mrs. Wilbur Allison of rural route three, Rushville. First Class Private Arthur D. Doerscher who is a student in the school for cooks and bakers at Camp Greenleaf, Ft. Oglethorpe, Ga., who, according to his recent communications, expects to leave soon for overseas service, has told many interesting stories of camp life and his appreciation for the mail received from Rush county, which is almost the limit of his correspondence is expressed as no trivial matter in his camp pleasures.

The plan of writing to soldiers whether one is acquainted with them or not has been highly by the government as one of the most patriotic measures those who remain at home might do in promoting the happiness and contentment of the boys in the training camps.
